

## Bangor University Guides & Scouts – Club Report

### June 2014

We have had a particularly successful year. Since February, we have tried to develop a series of weekly events run by a different committee member each week, based on their own skill base. Some were more successful than others, but in general we had a good time.

Activities included walks, spa & video games, a medieval challenge badge, Viking re-enactment with another Bangor society, bell ringing, a bug themed pub crawl, nerf games, light painting and of course a camp. We enjoyed a weekend at Rowen in Conwy walking with Sheffield StinGS.

The year culminated with an AGM where a full new committee was elected – very exciting considering our very small committee at the start of the year! We then continued the evening into the Bangor Societies Awards evening. We were able to celebrate a personal award for every member and the society gaining the 'Most Improved' award – something we've worked incredibly hard for & are very proud of! (Photo included)

We're so pleased with our progress this year – increased participation in SSAGO events, more members & of course our successful bid for next year's summer rally! A final well done to a super committee and we're all looking forward to another fab year!
