

LUUSAG Club Report- Spring 2014

LUUSAG survived Bathtime Rally and special mention to Caroline's parents who kindly hosed down the muddy remains of tents and went on to have a fantastic term. We braved the mud again on our Founder's (Thinking) Day Walk, although any embarrassing mud slides were avoided.

AGM included Pizza and Cake, always a bonus. We had a good turnout for Manchester Ball which included a visit to the Science museum. We won funniest club video at the outdoor society showcase (we still don't get what the joke was). As exams approached we enjoyed an indoor picnic (weather was not on our side) and more pub lunches. Post-exams included our monthly trip to Topgun followed by a fun filled weekend at reunion camp (special mention to Sophie who finally passed her driving test even after a night out). Reunion camp did not disappoint and saw large campfires, hash browns, site service as part of scout community week, ceilidh, jelly and cream and lots of other exciting stuff. This was followed by summer camp with a trip to tropical world to see the Meerkats, diversion to take brownies to the fire station, a day climbing, sailing and kayaking before a murder mystery where the butler didn't do it. Priority for next year: improve honorary male situation.
